Summary

Front-End Developer.

I have five years of experience in design, but I decided that I needed to develop and studied the front-end. Now I am looking for a job as a developer in order to hone my skills in practice.

Education

- **Master:**
  2013-2018 Priazovsky State Technical University.
  Faculty of Information Technologies.
  Specialty "Computer Science".
- **2021 Beetroot Academy.**
  Front-End Development course.
  📄 diploma.pdf

Professional skills and knowledge

- HTML, CSS, SASS, Flexbox, Grid, Bootstrap, BEM, basics of JavaScript, JQuery, React, OOP;
- Professional knowledge of Adobe Photoshop;
- Responsive design, Adaptive layout, Cross-browser layout, Figma, Adobe Illustrator;

Work experience

2015 - 2020 (UX / UI Designer).

I have experience in development of Landing Page design, corporate sites. I have developed advertising campaigns for the largest book resources – LiveLib and Litres (tests, contests, banners, presentations, page branding).
